

THE GELBOTTLE INC

NAIL SAVIOUR

APPLICATION GUIDE

CREATOR BASE

STEP 1:

- Apply one thin layer to your chosen base and allow to air dry for around 5 minutes.

STEP 2:

- Perform your application as normal (on top of Creator Base).

STEP 3:

- Remove using your ProPrep tool, gently lifting the base.

Pro Tip! Once Creator Base has completely dried, apply a layer of Top Coat before your design so you can easily wipe away any mistakes without impacting the Creator Base. This means you won't have to apply another layer and wait for it to dry again.

NAIL SAVIOURS

BRUSH SAVIOUR

STEP 1:

- Place 1-2 drops of Brush Saviour onto a palette or the brush itself.

STEP 2:

- Let the solution soak through the brush and then gently wipe with a Lint Free Wipe or paper towel to remove residue.

STEP 3:

- Repeat if necessary, until all bristles are soft and clean.
